

Rebelations

Message From the Principal

Dear Friends:

Daylight savings time and the presence of the sun lift the spirits of all of us. On the last day of school students everywhere cast their cares aside and bask in the sun and the idea of coming days of freedom, with few or no duties and hours of unfilled time! We all need time to relax and reflect; teenagers need time for the “sleep that knits up the ravelled sleeve of care,” as Shakespeare said in *Macbeth*.

With its unfilled days, summer is a time for students to grow in the values of family and faith and provides opportunities to be of service—to family, neighbors, or the parish church. Summer jobs, whether official ones or local child care, grass cutting, etc, can help students develop responsibility and social skills. Students can be “loaned out” to elderly relatives to help with heavy jobs or little ones, like sorting pictures for the family album. Relationships can deepen, and love and understanding can grow.

If possible, use rainy days and evenings for family fun. Strategy games can develop thinking skills. Reading develops vocabulary, comprehension, background knowledge, and wider interests. Make this a summer of happy family memories.

In the meantime, we will be getting ready for another year. The graduation ceremony on May 29, 2009 was the 30th Commencement of Seton-LaSalle. We will be planning ways to celebrate our 30 years in some special ways this coming year. In November the Middle States visitation team will be here to look over the plans we have been developing for the next seven years— through 2016!

In their speeches for student council today the freshmen made campaign pledges to keep the best and change the rest. We, too, will be evaluating and planning and looking forward to another great year. But, in the meantime, the summer awaits!

Lord, we look to you to be our strength this day.

In Fide et Caritate, Sr. Patricia

God’s Perfect Garden

O Creator God, your garden is perfect,—its colors harmonious, its scale immense.

You breathed this world into being. We thank you for the summer sun, the perfection of a butterfly's wing, the grandeur of a mountain range, the soaring eagle and the rippling waters.

O Creator God, your garden is perfect and we thank You!

This is the school's largest annual fundraiser and provides all the funds for our school computer labs and internet access as well as learning tools such as microscopes, smartboards, digital music labs, and more. See the SLS website and click on "Alumni/Events" for information on the 15th annual Green & Gold Gala. There is a donation form and a letter you can use to ask your favorite restaurant, hairdresser or other business to support us. For more information, call Amy or Marilyn at 412-561-3583 x 136. Congressman Tim Murphy Visits

One of the assignments for **Dr. Anthony Decaria's** Chemistry class was to write a letter to Congressman Tim Murphy expressing opinions on global warming. On May 26, 2009, Congressman Murphy came to SLS to discuss the issue with the students. He addressed many of the points raised by the class and informed them of his own efforts to solve the problem. It was a great exchange of ideas and information as well as a good lesson in civics.

Forensics News

Three students from the SLS Forensics team attended the National Catholic Forensic League Tournament in Albany, NY where over 3000 students from 59 dioceses competed. **Lauren Hess** presented her original oratory piece about her experience with therapeutic riding. **Ellie Riedel** and **Petey Bruni** competed in Oral Interpretation of Literature, alternating rounds of prose and poetry. All three girls did extremely well and the team is already looking forward to next year and a return to Nationals.

Did you know that Forensics and the National Honor Society are the only two nationally recognized honor societies for high school students?

Forensics teaches students to speak before an audience and helps them gain confidence, meet lots of other great students through competitions, go to state and national tournaments, and have fun.

The SLS Forensics coaches will be glad to speak with interested students over the summer to help them search for selections for next year. We are always looking for new members. No experience is required. See "Forensics" under the "Activities" section of the SLS website for more info. You can also contact one of the SLS coaches for more information: **Deanna Hess** ess3hess@msn.com or **Donna Salsburey** djsals1@aol.com
